

Cutting edge technology from the leader in modified atmosphere packaging

Bulk Bin Suspended

Corr-Vac[®] Mark III

- Fresh Product MAP Benefits:**
- Extended Shelf Life**
- Preservation of Flavor**
- Lower Ship Weight vs. Ice Pack**
- Increased Distribution Area**
- Reduced Energy Cost (Eliminate Freeze/Defrost)**

HOW WE ROLL

MODIFIED ATMOSPHERE PACKAGING (M.A.P.) or Controlled Vacuum Packaging is at the heart of everything CV-Tek represents. We preserve, protect and extend the shelf life of your products. Whether it is individual bags, lined cases, bulk-bin, totes, Gaylords, barrel, or super-sacks, CV-Tek has a proven solution.

POULTRY BEEF & PORK FISH PREPARED MEATS CHEESE NUTS

PRODUCE & FRESH-CUT POWDERS ORGANICS INDUSTRIAL

- ▶ 100% stainless steel and FSMA, FDA, & USDA compliant, optional 3A dairy-grade
- ▶ Built-to IP69 specifications, ensuring IP67 compliance-wash-down ready
- ▶ Seal bar lengths available 30, 54, and 62-inch
- ▶ Vacuum pump or optional liquid-ring and venturi
- ▶ Hot-bar or impulse sealing
- ▶ Bag-stretcher option to ensure wrinkle free bags
- ▶ One or two hand control options
- ▶ Flexible probes reduce damage and extend life
- ▶ Multiple language options available on our easy to operate controller
- ▶ Floor mount, optional casters, or unit can be suspended over a conveyor

Seal reliably through 8 layers of film. Easily process bags up to 100 inches (2540 mm) wide, without the need for obsolete long seal bars.

Mounting Notes:

The weight of the MARK III machine is approximately 700 lbs. Total weight provision must include the product and bin.

Installation should meet local, state, and federal guidelines and acceptable practices. Operator education, frequent inspection, maintenance, and documentation of all parts is a requirement for continued safe operation of the overhead lifting system.

- ▶ Vacuum and gas flush cases - extends shelf life of proteins
- ▶ Vacuum followed by dual gas flush mix extends shelf life and product color of red meats
- ▶ Gas flush any product that degrades in atmosphere
- ▶ Multi-gas flush totes or super-sacks of organic products assuring insects and larvae are asphyxiated
